

**Bike Path/Trail:**

**On Map:**

Separate right-of-way from motor vehicles. Connects open areas and parks. Trails may not be paved.

**Used by/for:** Kids, family recreation, adult exercise, skaters, joggers, walkers, and exercise walkers

**Bike Lane**

**On Map:**

Within vehicle right-of-way, but separated by signage and roadway striping. Vehicle speeds may be fairly high, but road width is adequate for vehicles and cyclists.

**Used by/for:** Adult recreation, commuters and serious cyclists

**Bike Route**

**On Map:**

Within vehicle right-of-way, but is typically identified by signage. Vehicle speeds are usually fairly low and the number of users is not likely to be significant.

**Used by/for:** Commuters and serious cyclists

**Undesignated**

**On Map:**

Within vehicle right-of-way with no identifying signage. Vehicle speeds are quite low and the number of users is not likely to be significant.

**Used by/for:** Kids, family recreation, commuters and serious cyclists
